

Gro-Maxx, GM™

GRAIN MAKER

ANALYSIS: 3.1N-0-0-2.3S-2.3ZN-2.3MN-.2B

RECOMMENDED RATE: 2.0Qt/Ac

There are several important stages of development in all plants as they grow to reproduce seed. During these growth stages there can be many different environmental and nutritional factors that effect a plants ability to efficiency grow and reproduce.

Gro-Maxx foliar Grain Maker™ is a full feed and balanced foliar designed to supplement and stimulate a plants nutrient levels at key stages of growth.

Grain Maker can provide good returns when applied at key growth stages or when crops are being affected by environmental weather conditions.

Gro-Maxx foliar Grain Maker™ provides solid protection against wind, heat and dry conditions.
