Luckey Farmers

Customized Product Solutions

Get to know Agworld and How it can Benefit you

- When you come to one of our agronomic professionals the first thing that they will do for you, is complete a customized profile report of your field using our customizable ag software.

- As a part of our services with Agworld we will develop and maintain soil sampling of your fields.

- By having detailed information in our software, and knowing your fields personally through our soil sampling procedures, we will be able to develop a product plan to meet your needs.

- What is unique about Agworld is that you will be able to have your own account and password, allowing you to see what your salesman sees in real time.

- You will be contacted every step of the way by one of our sales professionals.

- Record keeping is a breeze. You will be able to upload your self-applied product applications through paper, phone, e-mail or text.

- Because we offer custom services, we will create a specific plan that will fit your needs.
