

Precision Specialist

Location: Luckey Farmers, Woodville, Ohio

This position has responsibility for all aspects of precision agriculture technology and data collection

GENERAL DESCRIPTION

- Ensures the proficient capture and data organization for crop planning, scouting, mapping and compliance
- Manages the soil sampling program from collection through recommendations or mapping
- Utilizes communication skills to show the benefits and technical aspects of precision ag tools and how they can be incorporated into the Luckey Farmers Precision Ag Platform for customers
- Manages technology vendor relationships to ensure that adequate support and training are being offered
- Assists customers in installing and calibrating their precision agriculture equipment
- Successfully handle customers' technical problems, questions, and concerns over the phone or in person

GENERAL ACCOUNTABILITIES

- Possess a deep understanding of GPS (Global Positioning System), GIS (Geographic Information Systems), FMIS (Farm Management Information Systems), and Variable Rate Technology (VRT) and as it pertains to nutrient management and profitability
- Keeps current on features, benefits and value of new technologies in order to make informed recommendations
- Has a peripheral understanding of basic agricultural equipment (sprayers, combines, applicators, tractors), fertilizer usage and pest control
- Is current and up to date on all certifications and other educational opportunities. CCA preferred or must be willing to work towards obtaining one
- Possesses excellent time management skills and is able to handle multiple producers effectively and professionally at any given time throughout the growing season
- Has a basic understanding of 4R Nutrient Stewardship methods and H2Ohio planning
- Works with sales staff to manage and promote programs

OTHER JOB FUNCTIONS

- Follows Environmental Health and Safety, OSHA policies and procedures, as they apply
- Supports and contributes to total company goals and objectives through collaboration efforts
- Ability to work independently in a fast paced environment
- Ability to pay attention to the details
- Perform other duties as assigned

WORK ENVIRONMENT ACCOUNTABILITIES

- Must be able to safely mount, dismount agronomic equipment

BACKGROUND REQUIREMENTS

- Associate's Degree in Ag/Business, Agronomy or other related field preferred or relevant experience
- Experience in commodity handling preferred
- Strong communication skills
- Proficiency in Microsoft Office Programs
- Ability to multitask
- Strong decision making and problem solving skills
- Internally motivated

BENEFITS:
