

# GRO-MOR™ OUTLAW

## MATURITY

Medium

## PLANT HIGHLIGHTS

- Beardless variety with excellent test weight
- Great standability
- Scab resistant

## PLANT CHARACTERISTICS

Plant Height: Medium

AWN: Beardless

Lodging: 8.0

Winter Hardiness: 7.5

Test Weight: 8.0

Leaf Rust: 7.5

Powdery Mildew: Not Rated

SCAB: 8.5

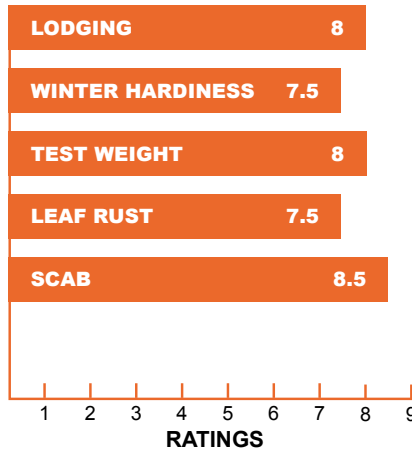

## SCAB RESISTANT GENES

There are two types of resistance: *Type I* and *Type II*

*Type I*: Lowers the initial rate of infection, but does not suppress spreading throughout the field.

*Type II*: Suppresses or inhibits the spread of the pathogen from the initial infect.

*All Gro-Mor varieties carry the Fhb1 gene. This gene provides Type II resistance as well as excellent Type I tolerance developed from decade of breeding and selection.*

Ratings: 5.0 to 9.0  
with 5.0 = Average and 9.0 = Excellent
